

GEARGRID[®]

FIRE

THE SMARTER, STRONGER STORAGE SOLUTION.

WALL MOUNT Lockers

GEARGRID is the strongest and most versatile line of storage equipment available.

GEARGRID's patented design promotes maximum air movement, minimizing odor build-up and allowing damp items to

dry faster.
Above-floor
mounting

eliminates

floor clutter, making cleaning easier than ever.

GEARGRID offers complete customization to match your design specifications, so you can build your locker system in any combination – whether it's one opening or one hundred.

Design Features

Sizes: Basic – 18" W x 20" D x 74½" H
Standard – 20" W x 20" D x 74½" H
Jumbo – 24" W x 20" D x 74½" H

Shelves/Hooks: Two shelves constructed of high-strength ¼" wire, and three apparel hooks per locker

Secure Doors: 1¼" heavy-duty tubing with high-strength ¼" wire
NOTE: Must be specified in initial quote request and order. Locks not included.

Adjustability: Wire shelves adjustable in 3" increments

Frame: Heavy-duty 1¼" tubing

Side & Back Grids: High-strength ¼" wire

Name Plate: 20 GA. sheet metal, accepts 2" x 16" custom printed name plate
2" x 12" nameplate on Secure Doors

Mounting Brackets: 11 GA. steel

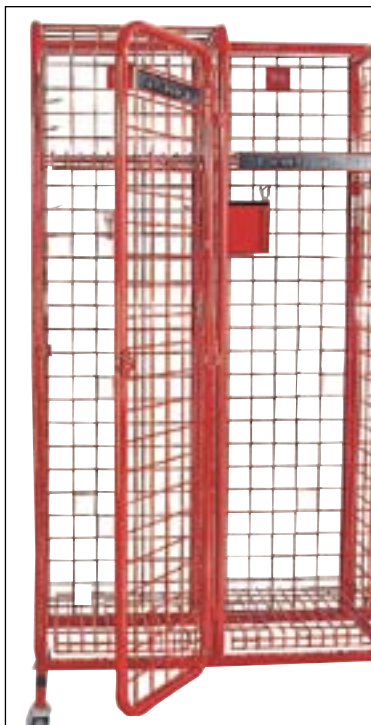

Finish: Durable powder coat

Colors: See color options on pg. 22 (custom options also available)

Assembly: With simple tools it's fast and easy

Shipping: Ships knocked down for ease of handling and reduced shipping costs

Secure Door™

Provides complete locking capability for wall mount and mobile systems.

Retro-Fit Door

Add complete locking capability to existing wall mount, mobile or free standing systems.

"Thanks, GEARGRID, for such a quality product and the superior service to Fire Station 63. Everyone got involved in planning the upgrade and the actual installation. When it was complete, each firefighter expressed a lot of pride and ownership, creating a real team spirit and boosting station camaraderie."

– Captain Rex Vilaubi, Los Angeles Fire Department, Station 63

Mobile & Free Standing Lockers

**6-Pack
Mobile**

3-Pack Mobile with Secure Doors

GEARGRID TOUGH!

Holds
250 lbs.
per wheel

Adjustable

Bolt Down

Support Options

GEARGRID's mobile lockers offer the strength, durability and open design of our original wall-mount system, with unlimited placement flexibility. Whether you're short on wall space or simply prefer the portability, these mobile lockers let you use any open space for fast, easy access to turnout gear, and superior ease of cleaning. Also available with adjustable supports for placement on uneven, sloping floors, and bolt-down supports if you prefer a fixed location.

Design Features

Basic 18" Wide: 2 Pack – 39" W x 20" D x 83" H
3 Pack – 57" W x 20" D x 83" H
4 Pack – 39" W x 39" D x 83" H
6 Pack – 57" W x 39" D x 83" H

Standard 20" Wide: 2 Pack – 43" W x 20" D x 83" H
3 Pack – 63" W x 20" D x 83" H
4 Pack – 43" W x 39" D x 83" H
6 Pack – 63" W x 39" D x 83" H

Jumbo 24" Wide: 2 Pack – 51" W x 20" D x 83" H
3 Pack – 75" W x 20" D x 83" H
4 Pack – 51" W x 39" D x 83" H
6 Pack – 75" W x 39" D x 83" H

Shelves/Hooks: Two shelves constructed of high-strength 1/4" wire, and three apparel hooks per locker

Secure Doors: 1 1/4" heavy-duty tubing with high-strength 1/4" wire

NOTE: Must be specified in initial quote request and order.
Locks not included.

Adjustability: Shelves adjustable in 3" increments

Frame: Heavy-duty 1 1/4" tubing

Side & Back Grids: High-strength 1/4" wire

Name Plate: 20 GA. sheet metal, accepts 2" x 16" custom printed name plate. 2" x 12" nameplate on Secure Doors

Support Options: 250 lb. capacity locking casters, or adjustable or bolt-down supports

Finish: Durable powder coat

Colors: See color options on pg. 22 (custom options also available)

Assembly: With simple tools it's fast and easy

Shipping: Ships knocked down for ease of handling and reduced shipping costs

ACCESSORIES

Your Space, Your Way

GEARGRID's innovative accessories provide the ultimate solutions to your unique storage challenges. From our Power Bar providing fast, easy access for charging cell phones, flashlights, or radios, to our one-of-a-kind Stow-Away Seat for added convenience and comfort, **GEARGRID** heard your needs and responded with the options you need. All built with the same heavy-duty steel and attentive craftsmanship as the rest of our line, **GEARGRID** accessories let you organize your space, your way.

POWER BAR™

- Adds an electrical receptacle to each locker to keep pagers, phones, flashlights and tools charged and ready
- Can be installed on new and existing GEARGRID Storage Systems

NOTE: Electrical service wiring and receptacle not included; to be supplied by customer's licensed electrician

TOP-SIDE STORAGE™

Store additional gear or bulky items, such as wildland gear bags or toolboxes, on top of lockers.

Can be installed on both new and existing GEARGRID Storage Systems.

NOTE: Cannot be used with Secure Door.

GEARGLOVE™

Constructed of stainless steel, this smart option helps gloves hold their shape while speeding the drying process.

GLOVE RACK

Handy dispenser secures firmly to locker. Fits most standard glove packaging dimensions.

Dimensions: 9½" W x 5" H x 3⅝" D

HEAVYHANGER

Constructed of ¼" stainless steel, this is the strongest traditional shape hanger you'll find anywhere.

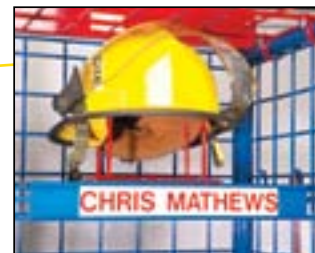

"As an architect whose firm designs emergency response facilities we recommend GEARGRID to current and prospective clients. GEARGRID systems have proven to be well designed, durable, flexible enough to meet both client preferences and aesthetics, and a great organization tool. We value their innovation in new systems and products that make it easier for our clients to find the right storage and work systems they need."

— Dennis A. Ross, Pacheco Ross Architects, P.C., Voorheesville, NY

HELMET HOLDER™

Protect ratcheting headgear with this innovative yet simple accessory, powder coated for long-lasting durability.

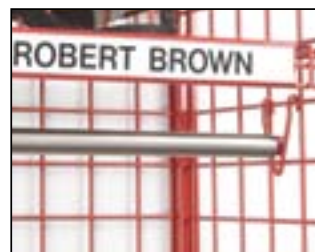

NOTE: Cannot be used with Secure Door or Top-Side Storage.

BINDER RACK

Provides quick and easy access for training manuals, larger mail items – whatever you need to keep handy.

GEARHANGER™

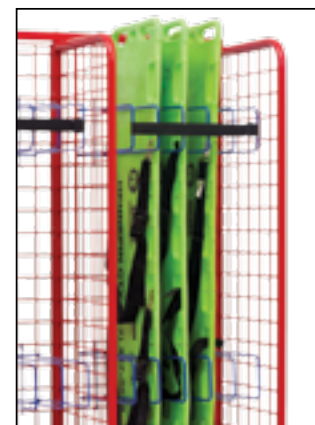

This horizontal hanging rod provides added organization, with long-lasting stainless steel construction.

SECUREBOX™

The powder-coated, aluminum SecureBox provides a safe location for personal items, and features a convenient mail slot in the door. Dimensions: 6" W x 6" H x 12" D

BACKBOARD RACK

- Durable powder-coated set of 2 racks (top and bottom) fits both 20" and 24" locker widths
- Adjustable in 3" increments; holds up to 5 backboards per rack
- Includes heavy-duty Velcro straps to hold boards in place
- Optional bottom basket allows for outside of locker storage

NOTE: Cannot be used with Secure Door or Top-Side Storage.

STOW-AWAY SEAT™

- Available on new or existing GEARGRID wall- and floor-mount systems
- Unique design folds into locker for compact storage
- Provides seating for dressing
- 250 lb. capacity

NOTE: Cannot be used with Secure Door.

GEARDRYER™

This stainless steel hanger holds a jacket open, protecting its shape and speeding drying time.

SCUBA DIVE LOCKER

Storage System

SCUBA Dive Locker Storage System

GEARGRID's innovative Dive Locker System provides the ideal drying environment for all your SCUBA gear, from wetsuits to regulators, gear bags, fins and up to 45 SCUBA tanks.

Its adjustable, modular design allows for complete customization, and features secure, lockable doors. Also available in wall mount configurations to meet any need.

- Locker shown accommodates 15 SCUBA tanks – total capacity is 45 tanks
- Durable steel construction with tough powder-coat finish
- Shelves are adjustable in 3" increments
- Available with or without Secure Doors

GEARGRID TOUGH!

"We compared TOG lockers and GEARGRID stood above all their competitors, in quality construction and in providing fully enclosed lockers for the cost. They have exceeded our expectations now and after the sale, by assisting us with small installation details and needs."

– Vincent D. Stover, Roanoke Fire - EMS, Roanoke, VA

Heavy-Duty Storage Solution

Seattle System™ Heavy-Duty 32" Deep Storage Solution

This versatile system offers flat shelves and bottle shelves plus generous depth – ideal for storing wildland gear, turnout gear and SCBA bottles. Completely customizable, **GEARGRID**'s Seattle System can be designed to your exact needs.

- Durable steel construction
- Designed to accommodate a variety of SCBA bottle sizes
- Shelves are adjustable in 3" increments
- Available with or without Secure Doors
- Durable, powder coated finish with multiple color options

"We purchased the Seattle System for the storage of oxygen cylinders and spare hose. We like the security, the extra depth, and the flexibility to move it as needed."

— Tom Quagliara, Islip Terrace
Fire District, Islip Terrace, NY

Heavy-Duty Mobile Hose & SCBA Bottle System

Responding to a fire department's need, **GEARGRID** redesigned its popular mobile storage system to handle the tough job of storing hose and SCBA bottles. Hose and bottle shelves can be mixed and matched to create the perfect storage unit for you.

- Durable steel construction with reinforced base capable of supporting up to 3,800 lbs.
- Designed to accommodate hose sizes ranging from 1½" to 5" and a variety of SCBA bottle sizes
- Shelves are adjustable in 3" increments

Design Features

Size: 75" W x 26" D x 82" H

Frame: Heavy-duty 1/4" tubing

Finish: Durable powder coat

Colors: See color options on pg. 22 (custom options also available)

Assembly: With simple tools it's fast and easy

Shipping: Ships knocked down for ease of handling and reduced shipping costs

"GEARGRID was chosen as the PPE storage solution for the new Rayleigh Weir station. It really does the job and we are extremely happy with its performance and versatility."

— John Philpott of Essex Fire and Rescue Property Services, United Kingdom

MINI MOBILE

Hose & SCBA Systems

Mini Mobile Hose & SCBA Bottle System

- Designed to accommodate up to 24 bottles or 800' of 2½" hose or any combination of the two
- Stores hose sizes ranging from 1½" to 3" and a variety of SCBA bottle sizes

Five-Shelf Mini Mobile Hose System with Winder

- Each shelf has a unique adjustable "book-end" ensuring hose is always stored upright
- Accommodates up to 1000' of 2½" hose
- Winder accommodates hoses up to 3" in diameter
- Stores hose sizes ranging from 1½" – 3" and a variety of SCBA bottle sizes

Design Features

GEARGRID TOUGH!

Holds
250 lbs.
per wheel.

SCBA Bottle Carriers

4-Bottle Carrier

6-Bottle Carrier

- Easy, convenient bottle transport
- Available in 5¾" x 5¾" and 7" x 7" dimensions
- Available in all standard GEARGRID colors

SLINGER WORKSTATION

Mobile Work Surface & Storage

Slinger Topside Storage

Slinger Tool Grid

6' Slinger Workstation

Initially developed for the Slinger, Wisconsin Fire Department, our new Slinger Workstation provides a safe, mobile work area designed specifically for inspection, cleaning, maintenance and portability of SCBA equipment. It's also one great all-purpose workbench.

The modular Workstation features a heavy-duty work surface, as well as safe storage and convenient, easy access to SCBA bottles of all sizes. Individual units easily transport through halls and doorways, allowing the workstation to be brought to the equipment for safer, easier loading/unloading. Need a larger work area? Our quick-connect mechanism lets you quickly join two Workstations, to create a larger work surface. Interchangeable, adjustable, flat shelves for tools and supplies, are also available.

Secure Doors

Quick-Connect Mechanism

GEARGRID TOUGH!

Holds
950 lbs.
per wheel

Work Surface Options

"We're very pleased with GEARGRID's lockers, as well as their craftsmanship in building our custom air room table, air bottle cart, and hose-loading cart. The GEARGRID staff worked closely with us and exceeded our expectations. We strongly recommend GEARGRID without reservation."

— Slinger Fire Department, Slinger, WI

Slinger Topside Wall Mount Shelf

Gear bags, tool cases or extra storage for just about anything. This heavy-duty shelf features tubular steel framing with gusseted support wires, and boasts a weight capacity of 150 lbs.

Available in 4' and 6' widths by 18⁵/₈" deep.

Slinger Tool Grid

Fast, convenient tool access and storage, easily configured to meet your specific needs. Mounts quickly and easily with four wall mount brackets.

Available in 4', 5' and 6' widths by 25¹/₄" tall, with the following hooks included as standard:

4' Unit: 3 Large Tool Hangers
1 Four-Prong Rack

5' Unit: 3 Large Tool Hangers
2 Four-Prong Racks

6' Unit: 4 Large Tool Hangers
2 Four-Prong Racks

Additional hangers and racks available.

Design Features

Size: Large single - 75" W x 30" D x 41" H
Small single - 51" W x 30" D x 41" H

Frame: Heavy-duty 1¹/₄" tubing

Side & Back Grids: High-strength 3/4" wire

Secure Doors: 1¹/₄" heavy-duty tubing with high-strength 3/4" wire
NOTE: Must be specified in initial quote request and order. Locks not included.

Casters: Locking casters handle up to 950 lbs. each

Finish: Durable powder coat

Colors: See color options on pg. 22
(custom options also available)

Assembly: With simple tools it's fast and easy

Shipping: Knocked down for ease of handling and reduced shipping costs

Slinger Workstations easily connect to create larger work areas.

HOSE DRYING SYSTEMS

Mobile and Wall Mount

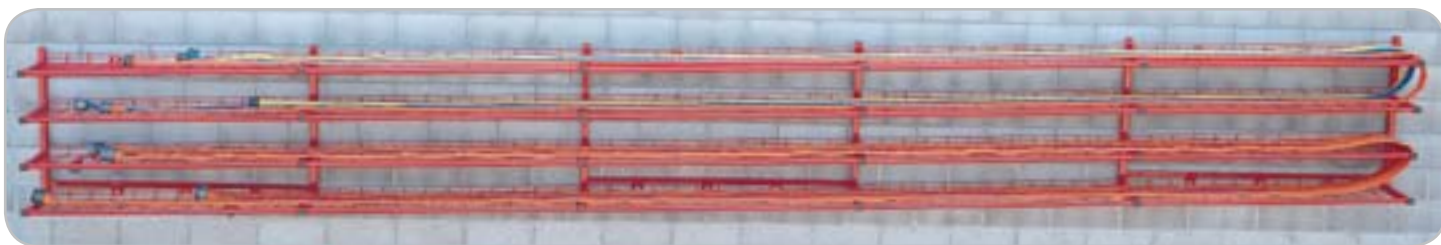

Mobile Hose Dryer

GEARGRID's mobile hose drying system promotes faster hose drying within a limited amount of space. Constructed with durable steel tubing and a strong wire grid system, it dries up to 200' of 2½" and 350' of 1½" hose simultaneously (in 50' lengths). The optional hose winder, with removable handle, makes rolling hose a breeze.

GEARGRID TOUGH!

Holds
250 lbs.
per wheel

Wall-Mount Hose Dryer

For a permanent solution, our wall-mounted hose drying system can be mounted virtually anywhere. The open wire grid system promotes maximum air movement, providing one of the most economical hose drying options available.

Design Features

| Finish: | Durable powder coat | | |

"As an architect specializing in fire station design, I strongly recommend GEARGRID to all of my clients. GEARGRID systems are price competitive, proven to last and a great organization tool. They are constantly upgrading their products to better meet the needs of the fire service."

— Mary McGrath, Mary McGrath Architects, San Francisco, CA

**GEARGRID
NEW!
INNOVATION**

 Removable tow
handle included

Compact Upright Hose Dryer

This innovative, space-saving vertical drying rack is a **GEARGRID** first, as it requires far less room and can be used with a Desiccant Dehumidification System. Removable shelves with handles allow hose to be loaded at ground level, then easily transferred to the cart. Features the same, tough **GEARGRID** frame and finish for years of performance, and standard tow handle for easy moving.

Design Features

- Size:** 39" W x 36" D x 82" H
- Frame:** 1/4" - 16 ga. Tube with 3/16" x 1" Heavy-Duty Angle Iron for Shelf Support
- Finish:** Durable powder coat
- Shelves:** Eleven 1/4" Wire Grid shelves with 5/16" double frame for extra support. Powder-coated finish. Stainless steel optional.
- Tires:** Pneumatic. NeverFlat tires also available.

“

With one phone call to GEARGRID, I was able to end a three-month search for the custom vertical drying racks we needed for our new stations. All three new stations now have them, along with other GEARGRID equipment that's far better than similar equipment in our other stations.”

”

— Battalion Chief Richard Choate, City of Sterling Heights, MI Fire Department

**GEARGRID
NEW!
INNOVATION**

Windsor Outdoor Hose Drying Rack

Developed for the Windsor, CA Fire Department, this unique system provides a convenient outdoor solution for drying hoses of all types and sizes. Great for warm climates, it's an ideal alternative to the high initial cost and liability implications of hose towers. Raised platform prevents hoses from getting soiled, as would happen when dried on the ground or pavement

Design Features

- Size:** 48' L x 5' W x 3 1/2' H with 12" slope
- Frame:** Heavy-duty 1 1/2" tubing for supports and 1/4" for frames; 1/4" wire grid
- Finish:** Epoxy primer with TGIC powder topcoat for exterior corrosion protection
- Colors:** See color options on pg. 22 (custom options also available)
- Assembly:** Stainless steel hardware all included
- Shipping:** Knocked down for ease of handling and reduced shipping costs

GEARGRID's new multi-functional system provides secure storage of SCBAs and bottles, as well as bagged gear or any items that store on flat shelves, all in one unit. With an overall width of 49½" and height of 72" x a 29" depth, the Miami unit can be outfitted for portable storage, or for trailer storage as it was originally designed for the Miami Dade FD. Easily customizable to meet individual storage requirements, this unique system is the single widest shelf **GEARGRID** offers!

- Optional Secure French Doors
- Shelves adjustable in 3" increments
- Wall mount option available
- Different colored shelves can be used to designate full and empty cylinders

Design Features

| | |
|-------------------------------|--|
| Size: | 49½" W x 29" D x 72" H |
| Frame: | Heavy-duty 1¼" steel tubing |
| Base & Back Grids: | High-strength ¼" wire |
| Casters: | Locking casters handle up to 950 lbs. each |
| Shelves: | High-strength ¼" wire |

| Colors: | See color options on pg. 22 (custom options also available) |
| Assembly: | With simple tools it's fast and easy |
| Shipping: | Knocked down for ease of handling and reduced shipping costs |

GEARGRID TOUGH!

"My fire station designs have been very well served over many years incorporating the GEARGRID product line. GEARGRID is attractive, durable, simple, highly functional, easy to clean – a win-win for all."

– Lawrence Engart, LEA - Architects, Phoenix, AZ

Originally developed for the underwater search and recovery unit of the Suffolk Police Department, **GEARGRID's** multi-functional Suffolk System is designed for safe gear storage and transport via their specialized response vehicle.

Located in Southeastern Virginia, the Suffolk Search and Recover Unit works in both freshwater and saltwater environments. To accommodate their varied needs, the original Suffolk System incorporated SCUBA gear and tank storage in a mobile configuration to allow for rapid deployment whenever required.

Now available in fixed and mobile configuration options, the Suffolk's versatility allows for storage of both cylinders and duty bags, with the added flexibility of shelf adjustability in 3" increments. The system's heavy-gauge, square-tube frame construction is finished with a durable, interior/exterior grade TGIC powder coating.

- Ideal for secure trailer storage
- Floor mount and wall mount options available
- Versatile system ideal for cylinders and duty bags
- 3 point locking system provides added security
- Stores up to 36 cylinders or four large duty bags

Design Features

| | |
|-------------------------------|--|
| Size: | 51" W x 33" D x 81½" H |
| Frame: | Heavy-duty 1¼" steel square tubing |
| Base & Back Grids: | High-strength ¼" wire |
| Casters: | Locking casters handle up to 950 lbs. each |
| Shelves: | High-strength ¼" wire |
| Finish: | Durable powder coat |
| Colors: | See color options on pg. 22 (custom options also available) |
| Assembly: | With simple tools it's fast and easy |
| Shipping: | Knocked down for ease of handling and reduced shipping costs |

MOBILE HOSE WINDERS

Ultimate Portability & Organization

Hose Tamer Mobile Cart

Tame the beast! Put an end to tangled, twisted hoses for good with the **GEARGRID** Hose Tamer. Wind hose quickly and easily anywhere, enhancing hose maintenance and protection. Folds up for space-efficient transport and storage between uses.

- Winds up to 3" diameter hose
- Stores 200' of 3" hose
- Heavy-duty pneumatic tires roll easily on any terrain
- Durable steel construction with tough powder-coat finish

Design Features

Heavy-Duty GRP Hose Winder

- Winds up to 5" diameter LDH hose
- Optional wall mount bracket available
- 2:1 gear ratio for winding ease
- Fits standard 2" receiver hitch

| | |
|-------------------------------|---|
| Size: | 32" W x 34" D x 58" H |
| Frame: | Heavy-duty 1 1/4" tubing |
| Base & Back Grids: | High-strength 3/4" wire |
| Tires: | 13.4" pneumatic tires rated to 485 lbs. NeverFlat tires available |
| Finish: | Durable powder coat |
| Colors: | See color options on pg. 22 (custom options also available) |
| Assembly: | With simple tools it's fast and easy |
| Shipping: | Knocked down for ease of handling and reduced shipping costs |

"Everyone at the firehouse is impressed with the quality and we all agree that GEARGRID is the perfect storage solution for our turnout gear."

— Matt Simmons, Goodwill Hose Co. #5, DuBois, PA

Convenient Access & Protection

Air Pack Rack

Provides convenient, accessible and movable storage for up to eight packs, and six spare SCBA bottles. Ideal for training, industrial firefighting, Hazmat applications, and storage of spare air packs.

- Customizable to any bottle bracket*
- Available in larger size to accommodate 12 air packs and 12 spare bottles
- Also available: Heavy-duty pneumatic tires
SCBA brackets
Protective cover

Design Features

Size: Large unit - 70" W x 30" D x 58" H
Small unit - 37" W x 30" D x 58" H

Frame: Heavy-duty 2" tubing

Bottle Shelves: High-strength ½" steel rod

Support Options: 950 lb. capacity locking casters or 300 lb. capacity pneumatic tires; adds 3" to overall height

***Note:** Bottle bracket make and model must be specified at time of order, to ensure compatibility.

"Using GEARGRID's SCBA Air Pack Racks lets us easily move eight SCBRs and six spare bottles with only one fireman, and saves storage space in our breathing air room. Well worth the investment."

— Lew Benham, DOW Chemical, Texas City, TX

SCBA Mobile Bottle Cart

Designed to accommodate up to 12 SCBA bottles. Provides secure, convenient transport from the fill station to the truck and back again. SCBA shelves are firmly secured with locking hardware, and include a securing strap for added bottle protection.

- Stainless steel front support stabilizer prevents rusting
- Heavy-duty pneumatic tires roll easily on any terrain
- Durable steel construction and tough powder-coat finish

Design Features

Size: 32" W x 34" D x 58" H

Frame: Heavy-duty 1¼" tubing

Base & Back Grids: High-strength ¼" wire

Tires: 13.4" pneumatic tires rated to 485 lbs.

APPARATUS STORAGE

SwingOut & PullOut Tool Grids

GEARGRID
NEW!
INNOVATION

**Double SwingOut
Tool Grid**

SwingOut Tool Grid

When every second counts, fast access to well organized tools is critical. **GEARGRID's** new SwingOut Tool Grid provides full visibility, making it easy to locate, grab and go. The system's adjustable, stainless steel tool holders let you configure and maximize your storage space just the way you want it.

Constructed of heavy gauge steel tubing and high strength 1/4" diameter wire, **GEARGRID** SwingOut Tool Grids feature a durable TGIC powder coating, in high visibility red or any of seven other standard color options, with custom colors available. SwingOut Tool Grids include exterior safety light and high visibility reflective tape for enhanced safety.

Design Features

- Single and double grid options
- View-through design for fast access
- Assists in managing inventory
- 5 stainless steel tool holder options to choose from
- Lightweight construction
- Custom made for your specific compartment. Single SwingOut requires depth of at least 12", with Double SwingOut requiring at least 18"
- Ideal for use in all styles of apparatus, including rescue trucks, pumpers and ladders
- 60 lb. gas springs with ball-joint fittings assist in easy open/closing
- Positive latching mechanism standard with each unit
- Unit ships assembled for easy installation
- Independent back wall tool grids also available

"We specified GEARGRID lockers, air bottle racks and a mobile hose dryer for our new engine house. Their staff designed our turn-out rooms and we were completely satisfied. So much so, we recently specified GEARGRID'S tool board for our new Spencer Mfg. engine. We can store twice as many tools on these boards, compared to a solid board. Being see through, allows our firefighters to see the tool they need, a real time saver"

— Chief Jay L. Hawley, Napoleon Twp. MI

INNOVATION

PullOut Tool Grid

PullOut Tool Grid

Our new PullOut Tool Grid provides the same fast access and ease of organization of the SwingOut System, in a pullout configuration. Tools can be mounted to one or both sides of this tough, powder-coated steel storage system.

Design Features

- View-through design for fast access
- Assists in managing inventory
- 5 stainless steel tool holder options to choose from
- Lightweight construction
- Ideal for use in all styles of apparatus, including rescue trucks, pumpers and ladders

**Total Coverage
Locker Shield**

**Topside
Locker Shield**

**End-Cap
Locker Shield**

Like so many successful **GEARGRID** products, our new Locker Shield System began with an actual customer request. Ideal for protecting gear from dust and debris between use, or to deter removal of gear in shared-use facilities, the Locker Shield also protects gear from harmful UV rays that can harm PPE fibers. The Total Coverage Locker Shield provides complete coverage and protection, helping prolong the life of your gear.

Only need partial protection? Our Topside and End Cap Locker Shields may be just the solution, whether you need protection from birds above, harmful UV light, diesel particulate or just general protection from dirt, dust or debris.

Design Features

- Fabric:** Durable, 9.25 oz. 100% polyester Aqualon Sewn with UV resistant polyester thread
- Colors:** Available in all standard GEARGRID colors, except white (Custom colors also available)
- Printing:** Custom logos available; 13" and 24" width options

TOTAL COVERAGE LOCKER SHIELD

- Sizes:** Available for new or existing 3-Pack and 6-Pack Mobile Lockers (Custom sizes also available)
- Materials:** YKK #8 nylon zippers, both ends. Rollup Velcro ties

TOPSIDE LOCKER SHIELD

- Sizes:** Available for new or existing 3-Pack and 6-Pack Mobile Lockers (Custom sizes also available)
- Frame:** 1½" heavy gauge tubular frame

END CAP LOCKER SHIELD

- Sizes:** Available for new or existing Wall Mount Lockers and 3-Pack and 6-Pack Mobile Lockers (Custom sizes also available)
- Frame:** Heavy-duty ¾" internal wire support
- Materials:** Secures with built-in Velcro straps

"Adding GEARGRID's lockers to our station was a huge upgrade. The quality and durability of the lockers will serve us well for many years to come and the staff at GEARGRID were great to deal with throughout the whole ordering process. Very easy to install and we feel the most professional gear lockers around."

— William Reams, Essex Fire, Essex VT

CLEANING & DRYING

Clutter Reduction Systems

LA Drying System

- Heavy gauge construction with eight gusseted corner brackets and reinforced base frame
- Ideal for drying of damp garments
- Provides organized storage solution for on-duty personnel
- Can be used in conjunction with GearGrid drying hangers
- Includes stainless steel hang bar

Design Features

Size: 72" W x 20" D x 81½" H

Base & Frame: Heavy-duty 1¼" tubing

Grids: High-strength ¼" wire

Casters: Locking casters handle up to 950 lbs. each

Finish: Durable powder coat

Colors: See color options on pg. 22
(custom options also available)

Assembly: With simple tools it's fast and easy

Shipping: Knocked down for ease of handling
and reduced shipping costs

1 Four-Prong Racks

6' Unit: 5 Large Tool Hangers
1 Four-Prong Racks

Wash Center 4' Unit: 3 Large Tool Hangers
1 Four-Prong Rack

5' Unit: 3 Large Tool Hangers
2 Four-Prong Racks

6' Unit: 4 Large Tool Hangers
2 Four-Prong Racks

MEASURING GUIDE

& Color Choices

Calculate Custom Wall Mount Configurations

We've made it easy for you to calculate the number of wall mount lockers that will fit a specified wall space. Just take the length of the wall in inches and subtract 1¼". Next, divide by width of selected locker (18", 20" or 24").

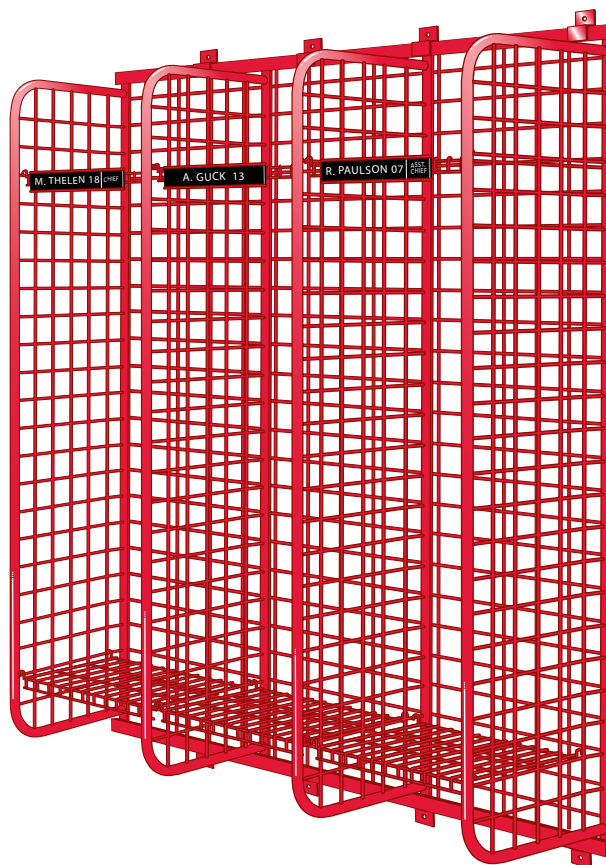

Example:

Size of locker: Standard – 20" W
Length of wall: 366"

$$366" - 1\frac{1}{4}" = 364\frac{3}{4}"$$

$$364\frac{3}{4}" \div 20" = 18.23"$$

18 lockers will fit desired space

Furring System

GEARGRID's Furring System is the ideal solution for mounting to walls with exposed conduit, pipes, or other obstructions. Available in standard wall and floor offsets from 2 to 8 inches (vertical & horizontal).

Color Choices

Standard colors: Burgundy, Monarch Black, Autumn White, Blue Streak, Crane Grey, Evergreen and Red Baron. *Custom colors available.*

"As a retired fire chief who had bought emergency service equipment for over 35 years and now as a fire station design specialist for Five Bugles Design, I know the value of quality products. I encourage our clients to purchase building products that last as long as the fire station does and GEARGRID is such a product. Their equipment, service and support exemplify quality."

— Edward Mishefske, Five Bugles Design, Menominee WI

WORLD CLASS INNOVATION

The Gear Grid Legacy of Performance

When your sole focus starts and ends with satisfying customers' needs, success is sure to follow. That's precisely the story behind GEARGRID.

It all started in 1921, when **GEARGRID** first began manufacturing durable steel tubing and wire products for a variety of applications. Building on this experience, and inspired by the experience of

firefighters looking for a storage system that could stand up to some of the harshest conditions, the **GEARGRID** Fire Safety division was formed. Today, enhanced through years of feedback from satisfied

fire departments and rescue personnel nationwide and abroad, **GEARGRID** has earned its reputation as the innovative leader – and continues to set the standard for craftsmanship, quality and service.

As we have since the beginning, all **GEARGRID** storage systems are manufactured in our Forest Lake, Minnesota facility. The experience of our skilled craftsmen is complemented by state-of-the-art technology and the use of only proven, heavy-

duty materials. We're especially proud of our in-house design group, which will gladly work with your department, architect or contractor to provide architectural specifications or help with a custom **GEARGRID** system layout. Whatever your needs, **GEARGRID** offers a smarter, stronger storage solution that's right for you.
