

OSMA HT 102-A

Osma HT 102-A is adapted for drying 2 chemical suits at the same time. The construction makes it easy to quickly change clothes directly on the stand. The Osma is delivered ready to connect to 230V with 550 Watts connection power. The drying process takes about 3 – 4 hours and can be adjusted with a timer. The temperature however is not adjustable, but is adapted for gentle drying.

Model OSMA

Air- and waterproof length adjuster. Variable up to 20 cm, fits all sizes (CSA). The air nozzles are strategically placed and warm air reaches every part of the protective suit. Four (4) hour timer. On entry level, the HT 102-A is delivered with wheels (two fixed and two swivel wheels, one with brake). Also available with wall mounting.
